ABSTRACT

Since 1968, the Central Staff Office of Institutional Research of the State University of New York has conducted an annual survey of the geographic origins or permanent residences of all credit course students attending institutions of the State University of New York. This report covers the fall 1974 term. Tables contain: (1) summary data for the entire State University system of student origins by institutional type and individual institution; (2) a listing at each institution showing the number of students at that institution from each New York county, other states, and foreign countries; (3) a listing for each state institution showing the number of students by New York county, other states, and foreign countries; and (4) percentage trends of information on the permanent residence of full-time students from 1959 through 1974.
